## Marc Champigny Group Manager – Aviation Planning

Marc's technical project experience includes planning, strategic, safety, operational, and financial services at several airports of varying size and function. Marc was previously the director of US aviation with The Louis Berger Group's Global Aviation Services group. Other roles include operations coordinator at Morristown Municipal Airport in New Jersey and special projects manager in the public sector for the New York State Department of Transportation's Aviation Services Bureau. These positions provide a comprehensive base of experience and a strong understanding of the airport operator's requirements. Technical project experience includes directing and managing projects relating to airport master and system planning, environmental, site and financial feasibility, market comparables, strategic planning and management, rate analysis and economic impact assessments, and FAA 5010 safety inspections. Marc also brings unique experience related to aircraft operations as a licensed private pilot.
